

# Welcome To VertexFX Trader Presentation

Full Tutorial for VertexFX Trading  
Platform

# VertexFX Trader

- **Multi-Level Platform**

For Dealing Rooms, Clearing Houses, Market Makers and Brokerage Firms. Our state-of-the-art Multi-Level Online Trading Platform, VertexFX Trader, is considered one of the most important, friendly, reliable and available online Trading Platforms in the world.

- **Value-Added Services:**

VertexFX is your main gateway to deliver the Online Trading with the enhancements of many Value-Added Services like Market News, SMS alerting, Mobile Trading and many others. Our "Highly Standard Services" is our capital that leads us to a great market share.

- **Auto Hedging:**

VertexFX Trader supports Auto Hedging (Clearing) technology through its Risk Management Bridging system which can be supplied by many international authorized Liquidity Providers in the world.

- **High availability:**

Backup feeds and online mirroring

- **API support**

Client, Backoffice, Bridge, VTL, WCF, SMS, News and Currency Server API support.

# Why VertexFX?

We know what the market actually needs. Third parties cost Time, Efforts and of course Money. We offer the complete full solution for all your needs. No longer paying for Plugins. They exist.

**Tired of Paying  
Thousands for  
Third Parties?**

# Why VertexFX?

Use VertexFX

VertexFX 10, offers the must have Plugins but built in. No extra budget for features required for your business as in other platforms. We included them in our Platform.

# Hosting Availability:

Hybrid Solutions provides two hosting mechanisms for VertexFX Customers:

## Internal Hosting Mechanism

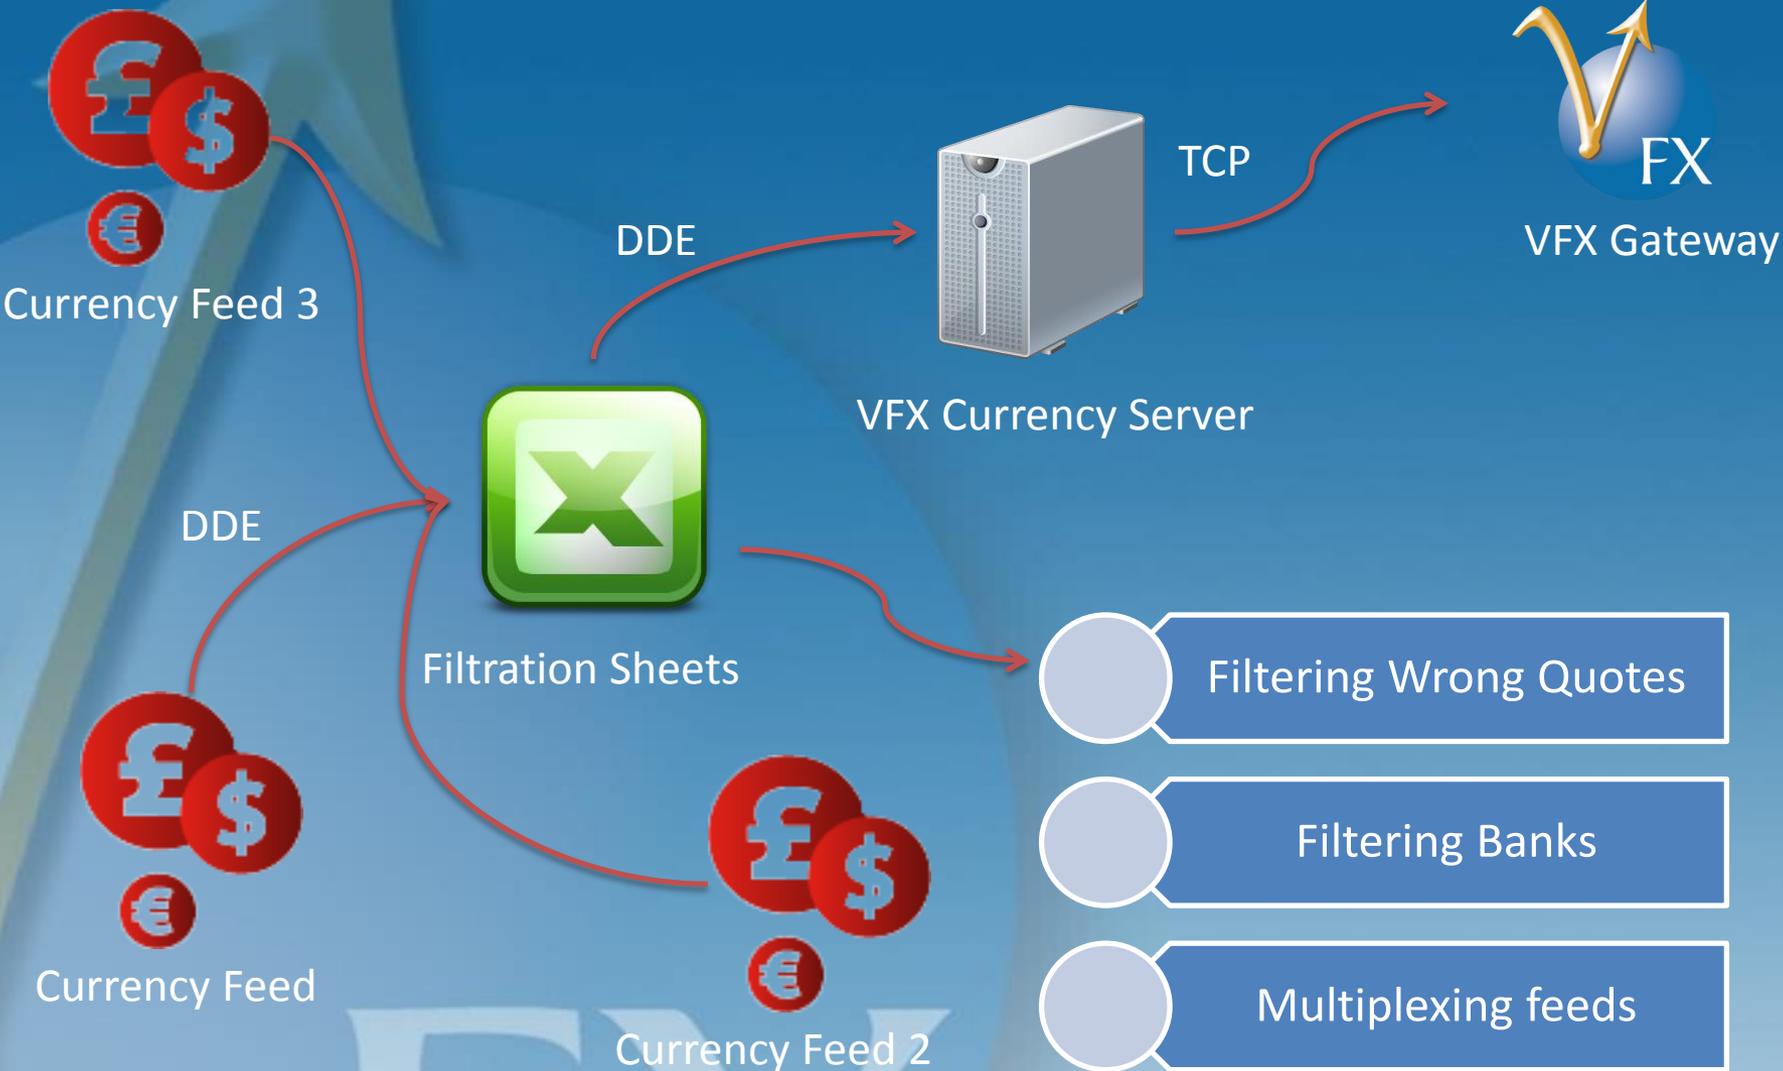

- VertexFX Datacenter is located in USA and it became number (1) in the world by year 2006.
- Data centers don't allow single points of failure.
- Network is designed to keep the clean data flying.
- Equipment is absolutely the best there is.
- Instantaneous service, eliminating downtime, data security, virus protection.
- All servers are monitored by our tech support team 24/7.

## External Hosting Mechanism

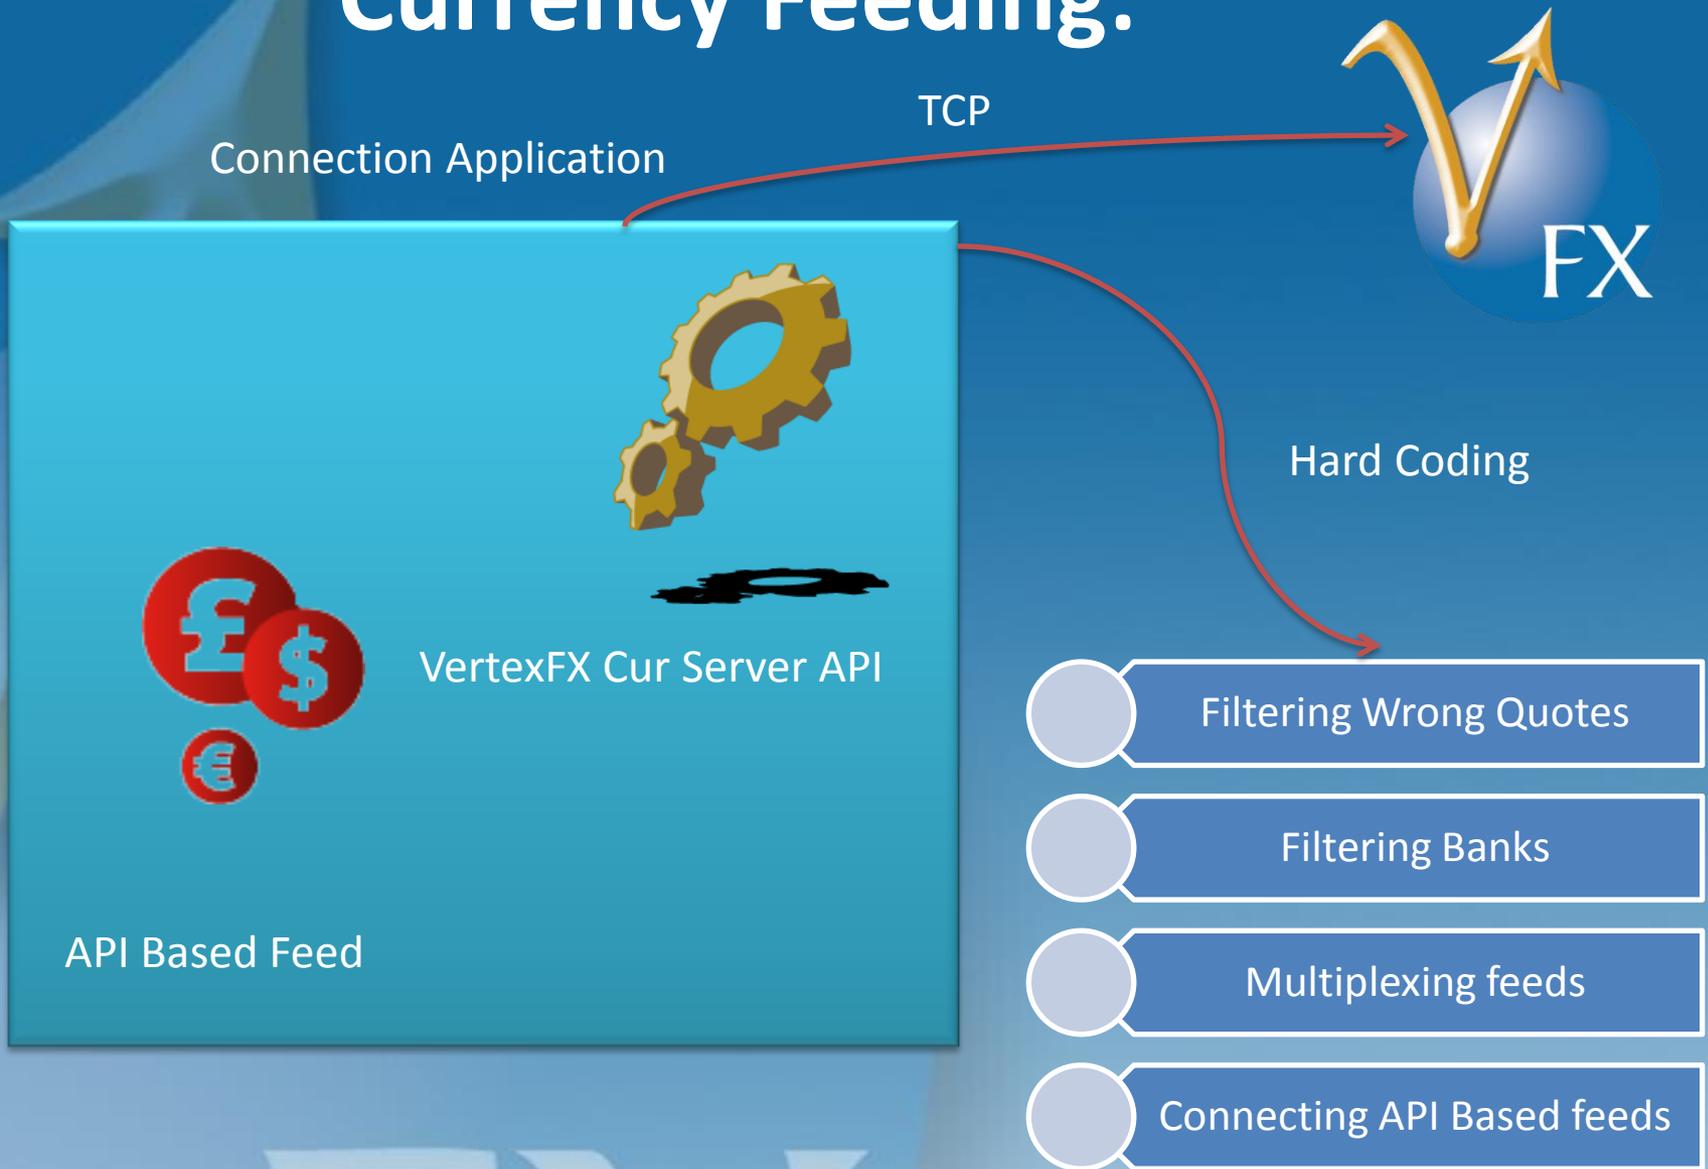

- VertexFX is hosted at the customer's own dedicated servers. It's preferred to have 2 servers but can be implemented on 1 server.
- The server required specs are DELL, 3.2 GHz, 80 GB Hard disk, 4GRAM.
- All support and server monitoring should be done by VertexFX customer
- 24/7 tech support is available optionally for VertexFX customer if he desires.

The screenshot displays the VTL Editor application window. The main editor area contains a script for 'Account Summary' with the following code:

```
1: #####  
2: ' Script Name: Account Summary  
3: ' Author: Ehab Kanani  
4: ' Description: This will create a label with Account Summary on the Chart  
5: ' Website: http://www.hybrid-solutions.com  
6: ' Date: March, 22nd, 2012  
7: #####  
8:  
9: Dim objText  
10: Dim objID  
11:  
12: ' <summary>  
13: ' The main function is the entry point for any Script program  
14: ' </summary>  
15:  
16: Public Sub main()  
17:  
18: objID="labelAccountSummary"  
19: fontSize=40  
20: XPos=10  
21: YPos=10  
22: objText= " Equity:" & CSTR(AccountInfoDouble(ACCOUNT_EQUITY)) & " Balance:" & CSTR(AccountInfoDouble(ACCOUNT_BALANCE)) & " Credit:  
23: CreateObjectLabel 0,0,CSTR(objID),CINT(XPos),CINT(YPos),objText  
24: End Sub  
25:  
26: ' <summary>
```

The right-hand side of the interface features a 'Navigator' pane showing a tree view of 'VTL Scripts', including 'Local VTL Scripts' and 'Server VTL Scripts'. The bottom of the window shows an 'Errors List' table with columns for 'Error No', 'Error Description', and 'Line Number'. The 'vStore' tab is active at the bottom.

# What is vStore?

vStore lets your uploaded content be the reason of your success. Join Hybrid Solutions ISV Program and let us help you. Easy as 1,2,3. Join us by filling a web form with your personal or your company data. Start developing your Trading Scripts, Feed Adapters, Web Applications, Mobile Applications, Risk Management Software's, etc.. with our advanced API Toolkit. Once your developed material ready to use, upload your content and set the description of your creation. Find fame.

## Categories

### Backoffice Plugins

Find solutions related to VertexFX Backoffice. Bridges, Management, Reports can be available here.

### Client App Plugins

Find solutions developed by the Authorized ISV's using VertexFX Client API. Web Applications, Mobile Applications are available here.

### Client VTL Plugins

Find Client and Server VTL Scripts. Expert Advisors, Custom Indicators, Alerts, Auto Trades can be found in this category.

### Templates

Find VertexFX Chart Templates in this area.

*Any Plugin connects to vstore.co*

The screenshot displays the vStore interface with a search bar at the top and a grid of plugins. The grid is organized into three main sections: Client Plugins, VTL Plugins, and Templates. Each plugin is represented by a small icon with a dollar sign and a brief description. The plugins include:

- Client Plugins:** Argunes, Bollinger Bands Tra..., Chaikin Trader, CMO Trader, DetrendedPr... Strategy, DPO Trader, EaseOfMov..., FractalCha... Strategy, High-Low Bands Trad..., Linear Regressi..., LineArregre... Strategy, MA Crossover 5 10 100, MAS Trader, Median Price Trader - S..., Momentum Strategy, News Trading, ParabolicSAR Strategy, Price ROC SLTP Trad..., PriceROC Strategy, RainbowOsc..., Range Trader, RSI Breakout Strategy, RSI Channel Strategy.
- VTL Plugins:** RSI Trader - Server, RSI Trader - Server, RSIMA Trader, SEMA Trader, Standard Deviation T..., STDev Trader, Stochastic Strategy, Stochastic Trader ..., Stochastic Trader ..., Stoch trader wit..., Swing Trader, Symbol Trader - Server.
- Templates:** Trend Follower Trader, 3 m..., TRIX Trader - Server, USTRIX Trader - Server, EMA Trader..., Wad Trader - Server, WMA Scalper - Client.

The interface also shows a sidebar with 'Free' and 'Paid' options, and a bottom navigation bar with 'Trade', 'Net Trade', 'History', 'Journal', 'Mailbox', 'News', 'Alerts', and 'vStore'.
